工作經歷

Impossible Finance

Product Designer

Oct 2021 - Jul 2025

IDO 投資平台全程設計

從 wallet connect、KYC、跨鏈質押到 Node Sale、Token Minting 的完整交易流程，並建構 Dark/Light 雙模式設計系統

TGBallers TON 鏈上遊戲

72 小時內完成架構規劃與設計稿，搭配 ChatGPT、Midjourney、Freepik 加速視覺製作

Kensei 鑄幣平台成就系統設計

為合作客戶設計從 Peasant 到 Kensei 五階會員等級、成就獎章，以及事前登入頁面設計

IF 募資平台推薦系統設計

設計推薦碼機制、獎勵進度條與白名單配發邏輯

新 CMS 系統從零建構

一一拆解需求、設計整體架構，將代幣上架時間從數日縮短為數小時，支撐 20+ 次代幣發行

Gorilla Technology Group

UI/UX Designer

Jun 2017 - May 2020

IVAR 智慧影像分析平台

設計桌面端 dashboard、即時告警系統、影像查詢流程；同期支援智慧機場、新北市輿情系統等公部門部署案

跨產品設計系統

導入 Material-UI 與 Highcharts 規範、建構共用元件庫，並撰寫 HTML/CSS 加速交付

台灣大哥大

UI/UX Designer

Oct 2013 - Jun 2017

myVideo OTT 多平台介面

設計 mobile、web、Chromecast 多平台介面，在不同裝置尺寸與互動模式間維持一致的觀看體驗

使用者測試與研究

透過 A/B testing 與易用性測試驗證 myVideo 內容版位的設計決策；myBook 期間另協助外部研究團隊進行訪談紀錄。

台灣大哥大

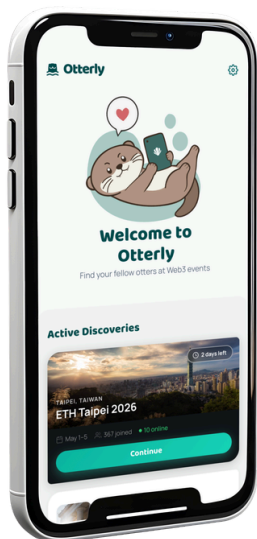

UI/UX Designer

Oct 2013 - Jun 2017

建立行銷設計規範

從視覺設計原則到 EDM 模板，加速跨部門素材產出。

個人專案

Otterly - Breaking Ice on TON

0-to-1 mobile-first 產品設計

獨立規劃 Telegram Mini App 的整體體驗，包含貝殼貨幣經濟、每日滑卡額度、72 小時限時聊天、雙向揭露等留存與互動機制

以 AI 工具加速設計流程

Claude Code 實作 agent 原型、Claude 製作可點擊原型、Google Stitch 迭代 UI、ChatGPT + Jitter 產出角色與動畫

PROFESSIONAL EXPERIENCE

Impossible Finance

Product Designer

Oct 2021 - Jul 2025

🔗 IDO investment platform end-to-end design

Designed the complete transaction flow from wallet connect, KYC, and cross-chain staking to Node Sale and Token Minting; built a Dark/Light dual-mode design system

🔗 TGBallers TON on-chain game

Delivered the architecture plan and design mockups in 72 hours, with ChatGPT, Midjourney, and Freepik accelerating visual production

🔗 Kensei token minting platform · Achievement system design

For a partner client, designed five-tier progression from Peasant to Kensei, achievement badges, and a pre-launch mission system linking wallet connect and social tasks to reward distribution

🔗 IF IDO platform Referral system design

Designed referral code mechanics, reward meter, and whitelist allocation logic

🔗 New CMS system from scratch

Broke down requirements and designed the full system architecture, cutting token onboarding from days to hours and supporting 20+ token launches

Gorilla Technology Group

UI/UX Designer

Jun 2017 - May 2020

🏢 IVAR smart video analytics platform

Designed desktop dashboards, real-time alarm systems, and video query workflows; supported public-sector deployments at smart airport and New Taipei City public-opinion monitoring system

🏢 Cross-product design system

Introduced Material-UI and Highcharts standards, built a shared component library, and wrote HTML/CSS to accelerate delivery

Taiwan Mobile Co., Ltd.

UI/UX Designer

Oct 2013 - Jun 2017

🌐 myVideo OTT multi-platform interfaces

Designed mobile, web, and Chromecast interfaces, maintaining a consistent viewing experience and design language across device sizes and interaction modes.

Taiwan Mobile Co., Ltd.

UI/UX Designer

Oct 2013 - Jun 2017

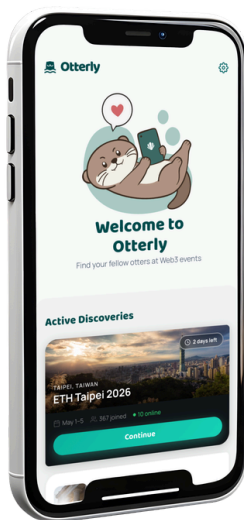

User testing & research

Ran A/B testing and usability testing on myVideo content placement to validate design decisions; supported an external research vendor during the myBook project by taking interview notes.

Established marketing design guidelines

From visual design principles to EDM templates, accelerating cross-team asset production.

PERSONAL PROJECT

Otterly - Breaking Ice on TON

0-to-1 mobile-first product design

Independently shaped the full Telegram Mini App experience, including shell-currency economy, daily swipe quota, 72-hour time-limited chat, and mutual-reveal mechanics for retention and engagement

AI-accelerated design workflow

Claude Code for agent prototyping, Claude for clickable prototypes, Google Stitch for UI iteration, ChatGPT + Jitter for character and animation production
